

SRIMAN ABIMANYU MUTHUKUMARAN

+91 97871 33999
srimanyu@gmail.com

CORE COMPETENCIES

- Front End Development
- Design & Development
- Coding & Testing
- Cross-Browser Compatibility
- UI/UX Principles
- Prototyping
- Project Management & Execution
- Cross-Functional Team Collaboration
- Code Quality & Performance Optimisation
- Requirement Gathering

SOFT SKILLS

- Collaborator
- Communicator
- Planner
- Change Agent

TECHNICAL SKILLS

- Svelte, React, Redux, Vue
- Electron, Tauri
- Tailwind CSS, Bootstrap
- Javascript ES5 & ES6
- Adobe Suite
- Figma
- Oracle Apex
- Node.JS
- React Native
- SQLite / MySQL

PROFILE SUMMARY

A versatile, high-energy technocrat with over 9 years of experience of executing prestigious projects of large magnitude within strict time schedule, targeting senior level assignments in Front-end Development and UI/UX Designing with an organisation of high repute

- Gained exposure on **process requirements** and **provided use cases** for business, functional & technical requirements
- Extensive experience in **building robust architecture** for different solutions by managing the security, performance, availability, compliance, scalability and maintainability aspects
- Understanding of **Software Development Lifecycle (SDLC)** right from requirement analysis, documentation (functional specifications, technical design), **coding and testing** (preparation of test cases along with implementation) to maintenance of proposed applications
- Followed the **project life cycle methodology** defined under the process framework; ensured that customer deadlines were met within project budgets
- Provided insightful knowledge of **business process analysis** (As-Is, To-Be) and design; managed application based process re-engineering, process optimization, **cost control and revenue maximization** from technical solutions using cutting-edge technologies
- Formulated solutions for given **technical specifications**; installed application software and deployed customizations with quality maintenance; contributed to code reviews; supported production deployments of developed solutions
- Proficient in ensuring that all **UX Design activities** are executed at high quality levels, leading team initiatives, setting priorities, and managing scoping

EDUCATION

University of Bristol — Sep'14 - Sep'15

Postgraduate Certificate - Advanced Computing in Internet Technologies

Sona College of Technology — Aug'10 - May'14

Bachelor of Technology - Information Technology

CAREER TIMELINE (LAST 3 ORGANISATIONS)

Senior Front End Developer, Syneos Health — Jun'19 - Present

Responsibilities:

- Collaborating with cross-functional teams to design and implement user-friendly interfaces for web applications, ensuring seamless functionality and visually appealing designs
- Developing and maintaining high-quality front-end code using various Front-end frameworks and CSS Libraries, while adhering to industry best practices and coding standards
- Continuously staying updated with industry trends and best practices in front-end development, incorporating the same into projects to deliver cutting-edge solutions
- Conducting code reviews and providing constructive feedback to junior developers, ensuring adherence to coding standards and fostering their growth and development
- Mentoring and providing guidance to junior front-end developers, nurturing their skills and enhancing their expertise in the field

Achievements:

- Spearheaded a Product Development Team answerable for creating an application that generates industry-standard data analytics dashboards based on user inputs, enhancing data visualization capabilities and improving decision-making processes
- Developed a 2-tier application using Oracle APEX for creating metadata and Svelte, Tailwind CSS, and Vanilla JavaScript for building working dashboards, successfully delivered the application within the stipulated time frame and budget

Senior Consultant Digital Services, IHAA Technologies — Apr'18 - Jun'19

Responsibilities:

- Collaborated with cross-functional teams to design and deliver innovative digital solutions, conducted market research and analysis to identify emerging digital trends and technologies
- Developed and implemented digital strategies and roadmaps to drive business growth and improve customer experience, led and managed digital transformation projects for clients across various industries
- Documented software solutions through flowcharts, layouts, diagrams, charts, code comments and clear code
- Formulated solutions for given technical specifications; installed application software and deployed customizations; contributed to code reviews
- Tested modules developed by self & the team to ensure that these were as per desired quality standards; wrote test specifications and conducted tests

Head - Digital Infrastructure, Vizzitec Solutions Pvt Ltd — Jun'17 - Apr'18

Responsibilities:

- Acted as the Head of the Digital Development Team, to administer the creation of end-to-end organisation operating software such as Employee Management, Timesheet, Leave Management, Holiday Tracker, Inventory Management, Expense Tracker, and Appraisal Tracker
- Developed software solutions by analysing information needs, conferring with users, studying systems flow, data usage, and work processes
- Liaised with users for requirement gathering; prepared functional specifications and low-level design documents
- Managed the maintenance of program modules including operational support, problem resolution, production support, preventative and corrective maintenance and enhancements
- Assisted in determining operational feasibility through analysis, problem definition, requirement analysis, and proposing solutions
